Technology Coop Opens New Store On Next Monday

Modernistic Building, Designed
By Tech Men, Erected
For \$80,000

New Structure Will Contain
Barber Shop and Fountain

Name of Organization Changed
To Technology Store
Recently

The grand opening of the new "Coop" building, an \$80,000 structure of ultra-modern design, will take place next Monday. The building, which is an outstanding exhibit of the advancement of modern architecture, will house under one roof an enlarged men's furnishing and stationary department, an entirely new barber shop, and a soda and luncheonette bar.

Named Exclusively for Tech
In deciding upon a name the officials felt that Tech students should have a store that is distinctly their own. The present name "Technology Branch of the Harvard Co-operative Society" does not convey that idea and hence the new store will be known as the "Technology Store."

However the building is not distinctly Technology's in name alone.

Economics Students To Hear Morgan-Webb On Money Revolution

Lecturer Is Former Secretary
To the Burmese Gov't.;
Public Invited

"The Money Revolution" will be the subject of an address by Sir Charles Morgan-Webb, former Chief Secretary to the Government of Burma, before students and members of the faculty of the Department of Economics and Social Science in Room 1-190, at 3 p.m. this afternoon. During his colorful career Sir Charles was not only Chief Secretary to the Government of Burma; but also Chancellor of the University of Rangoon; Chairman of the Rangoon Development Trust, a body which transformed Rangoon from an overcrowded, unsanitary city into an expansive, modern city; Proprietor of the Finchley Press in London; and has been President of the London and Suburban Press, which he founded.

Debate Will Be Held On Sit Down Strikes

Industrial and Labor Leaders
Consider New Movement

Albert Murray, prominent New England industrialist, will oppose Powers Hapgood at the debate and discussion to be held by the Tech Union next Tuesday at five P.M. in Eastman Lecture Hall. Mr. Murray, who will take the side of the "Economic Royalist" on the topic of "The New Labor Movement," is well qualified for the task, being president of the Associated Industries of Massachusetts and president of the Murray Printing Company.

Debater is C. I. O. Secretary
Mr. Hapgood, Secretary of the New England Council of the C. I. O., has long been affiliated with the organized labor movement and is said to be the right hand man of John L. Lewis.

The question involved is of particular interest in light of the surge of "sit-down" strikes which are sweeping the country and are the cause of much discussion in Congressional circles.

Visitor Shatters Bowling Record With Score of 176

A new mark of 176 on the Walker Memorial Alleys was achieved during the past week by Noel C. LeRoque, who shattered the old mark of Eddie Pung's by five points. LeRoque got his score by starting his string with four consecutive strikes followed by a spare and a ten. The new title holder is not a Tech student.

New A.A. Officers Elected For 37-38

New Executives Are Gilliss,
Bergeson, Robbins,
Phillips

At the monthly meeting last Tuesday of the M. I. T. A. A., the new officers for 1937-38 were elected. They are James M. Gilliss, '38, President; Lloyd Bergeson, '38, Vice-president; Robert M. Robbins, '38, Secretary; and Daniel N. Phillips, '38, Treasurer. These elections are subject to approval by the Institute Committee.

Gilliss Has Held Many Positions
The new president, Gilliss, belongs to Beta Theta Pi. Among the athletic managerial positions he has held are the manager of the gym team, president of the Nautical Association, and captain of the Soccer team. The straight "T" was awarded him last year for his work on the soccer team. He also belongs to the Beaver Club, and was formerly a member of the Elections Committee.

Bergeson, the vice-president, is a member of Phi Gamma Delta and of Beaver Key Society. He is also manager of the track team.

Secretary Robbins was Manager of Squash and Tennis this year. He belongs to Phi Beta Epsilon and Beaver Key, and was an usher at last year's Open House.

Daniel Phillips is a member of Phi Kappa Sigma and the Beaver Club.

5:15 Officers Given Gold Medals at Dance

Officials of Club Presented
Souvenirs Saturday

Nearly one hundred persons were present at one of the best attended of the Saturday evening dances for members which the 5:15 Club held in the clubroom on Saturday evening, March 27. Past officials of the club were presented with emblems, gold for the old executive committee and silver for the others. Those receiving gold medals were Leonard B. Chandler, graduate student, Walter V. Osgood, graduate student, Robert P. Rudy, '37, Philip R. Scott, '37, George H. Morel, '38, and Raymond A. Dreselly, '37. Silver medals were presented to John M. Gallagher, '37, Robert E. Hadley, '38, Samuel Rudginsky, '38, Milton Lief, '37, Peer J. Cody, '38, and George H. Morel, '38.

Course Counselling For Frosh Thursday

The last meeting in the series of freshman course counselling talks will be held Thursday afternoon in the Moore Room on the third floor of the Eastman Building. The session will be held from four until six, and is open to all freshmen.

This final meeting is held to afford an opportunity for those who could not attend the dinners and for those who have questions they did not discuss at the former dinners. Graduate students will be present as counsellors from each course.

149 freshmen attended the three dinners, which have been conducted by Anton E. Hittl, G., under the sponsorship of the T. C. A.

Dramashop Opens "He" To Public On Next Thursday

Play Will Run At Rogers For
Three Consecutive
Evenings

Drama Produced Solely By Club

The Technology Dramashop will offer "He" to the public on Thursday, Friday, and Saturday, April 8, 9, and 10 in the Rogers Building starting at 8:15.

It is the proud boast of the Dramashop that they have done everything themselves. Gus Murillo, '39, is in charge of production, Gordon Stephenson, G., has done the scenery, while Professor Fuller has ably coached the cast.

Plotters Abolish God
The plot of "He" concerns itself with a group of people in an Austrian Inn who abolish God. An avalanche which buries the Inn, and is attributed to an act of God, and several conflicting love interests make "He" a play of absorbing interest.

The cast is as follows: "He," Robert Pastene, '39; Matar, James Souder, G.; President Cog, Theodore Lisberger, '38; invalid, Ruth Raftery, '38; commander, George Moore, '39; Miss Scobille, Margaret Whitcomb, '39; Ping, Jack Chapin, '37; and the Princess, Flora Crockett, '37. Other members of the cast are Edward Peterson, '37, Mark Magnuson, '39, Bonner Hoffman, '40, Edward True, '38, Gus Murillo, '39, Gordon Stephenson, 'G., and A. Laurie Fabens, '39.

Gym Team Will See Movies of Olympics At Banquet Tonight

Varsity Awards Will Be Given
and Captain Elected
At Dinner

Olympic pictures, the presenting of the varsity awards and the election of the captain for next year will feature the gym team banquet to be held tonight in the Faculty Dinner Room of Walker.

At 5:30, 1200 feet of film of the Olympic track and field events will be shown. Dinner will be served at 7:00. During the dinner the election of next year's gymnastic captain will take place. The varsity award will also be given at this time. This award goes to the member of the varsity, not necessarily a letter man, who has, in the opinion of the varsity, done the most for the sport this year.

To Show Olympic Films
Following the dinner Coach Herbert Forsell will show 8 mm. film which he took of the last Olympic trip and Olympic gymnastic competition.

Anybody who has been out for either the freshmen or varsity gym team this year is invited to attend the dinner for which there will be a \$.85 charge.

Last Tuesday the freshman gym team won from Summer High School of Holbrook by a score of 39-15. The freshmen so far have a record of two meets won and one lost. Their concluding match of the season will take place against Braintree High School whom they defeated earlier in the season by a score of 35-19.

N. E. Catholic Clubs Hold Dance Tonight

The New England Federation of College Catholic Clubs will give a dance tonight at the Parker House. The Federation, of which the Technology Catholic Club is a member, is holding the dance as a part of its annual Spring convention.

Tickets for the affair are \$3.00 a couple. The dance will last from nine A.M. to two A.M.

Unredeemed Options To IFC Dance Will Be Sold Publicly

All unredeemed options for the I. F. C. Dance on April 30 will be sold publicly, it was announced today by Alfred E. Busch, '37, Chairman of the Dance Committee. It is probable that the options will be redeemed immediately before the Spring Recess, although this has not been officially confirmed.

Honor Fraternity Advocates Change

Pledges of Tau Beta Pi Seek
Advice on Curriculum
Rearrangement

If you should happen to see a man wandering around through the halls this next week wearing a square pledge pin, half white and half seal brown, in his lapel, you will know that he is a new pledge for Tau Beta Pi, the national honorary engineering fraternity. These men whose names must traditionally be withheld until after initiation, have been given a pledge duty preceding their initiation into the fraternity which may bring about an important change in the curriculum of every student here at the Institute.

Pledge Duty Not a Stunt
According to Philip H. Peters, '37, president of the Technology chapter, it is the general feeling of the active chapter that it would be advantageous to the school if the schedules of all students at Technology could be rearranged so as to permit the entire undergraduate group to have a free hour at the same time either once a week or once every two weeks. In that case the Institute could have a Convocation Hour similar to that which is now in use at Oxford University in England. It would be possible, Peters claims, to have student

Tau Beta Pi

Three Musical Clubs To Present Concert

Hyde Parkers to Hear LaForge
As Baritone Soloist

The Glee Club, the Orchestra, and the Octette will again combine in presenting a concert before the Current Events Club of Hyde Park at 8 P.M. tonight.

Louis H. LaForge, Jr., '37, will sing a baritone solo of a special arrangement of "The Road To Mandalay," and the orchestra will play selections from Haydn, Gounod, and Ivanov. The program of the Octette includes the Dartmouth "Winter Song," a Negro ballad, and two sea chantys.

After the concert, the Techonians will play for dancing.

Plans are now under way for a spring concert by the Glee Club and the Orchestra, to be held in Walker on a Sunday afternoon around the first of May.

Technology Delegates To Attend Conference

A group from Technology is being organized by David M. Johnstone, manager of the conference department of the T. C. A., to attend the Student Christian Movement Conference at Camp O-Atka at Lake Sebago, Maine. Technology has always sent a delegation to these conferences, which have previously been held at Northfield.

The conference this year will be held from June 14 to June 21. For the first time, women's colleges will participate in the event, and delegates from the major colleges in New England will be present. Those interested may secure further information in the T. C. A. Office.

Five Professors Appointed By Institute Today

Thirty-nine Members of the
Teaching Staff Receive
Promotion

Ten Are Raised to Rank of
Associate Professors Today

Twelve of Teaching Staff Are
Named As Assistant
Professors

Promotion of 39 members of the teaching staff and five new appointments were announced at Technology today.

Members of the faculty promoted to the rank of full professor were Professors Ralph D. Bennett and Edward L. Bowles of the Department of Electrical Engineering; Karl D. Fernstrom, Department of Business and Engineering Administration; Philip Franklin, Department of Mathematics; Murray P. Horwood, Department of Biology and Public Health; George Scatchard, Department of Chemistry, and Edward R. Schwarz of the Department of Mechanical Engineering.

New Associate Professors
Promoted from assistant professorships to associate professor were Edward S. Taylor and Arthur L. Townsend of the Department of Mechanical Engineering; Raymond D. Douglas, Department of Mathematics; Bernard E. Proctor, Department of Biology and Public Health; John

Phonograph, Records Given to Technology; To Be Used In Walker

Carnegie Corporation Donor;
Instrument's Location
Not Settled

A new phonograph in Walker Memorial is but the first installment of a considerable musical gift to the Institute by the Carnegie Corporation it was learned last night.

According to Professor Henry G. Pearson, head of the English department, a large number of records are included in the gift and will soon be received. There have already been received a set of record books and a book case.

Ultimate Location Uncertain
Ultimate location of the phonograph is uncertain. According to George B. Wemple, '37, chairman of the Walker Memorial Committee, final decision about placing the instrument will not be made until disposition of the old phonograph is decided

Alpha Tau Omega and Sigma Nu Pick Heads

Saunders is President of ATO,
Gibson New Chief
of Sigma Nu

The following new officers were elected by Alpha Tau Omega last Wednesday night: Harry O. Saunders, '38, who is also General Manager of T. E. N., president; Thomas B. Akin, Jr., '39, chancellor; Julian M. Spencer, '39, treasurer; Austin B. Croshere, Jr., '39, secretary.

Sigma Nu elected their new officers last Monday. William Gibson, '37, managing editor of Voo doo was chosen commander; George W. Krebs, '39, assistant manager of the Gym team, lieutenant commander; H. Merritt Woodman, '39, 150 pound crew man, treasurer; and J. Karl McLaughlin, G., recorder.

NEW PHONOGRAPH

BUT NO ROOM FOR IT

WITH the arrival of a new phonograph in Walker, capable, probably, of the best reproduction available outside of the laboratory, the problem of sufficient space in Walker becomes even more acute.

The gift from the Carnegie Corporation is really a superb musical instrument. Its maximum frequency can be varied from 4500 cycles to 20,000; compensation is provided to adjust the ratio between low and high tones so that the instrument will give the equivalent of concert-hall balance at any volume or in any size room or auditorium. Those who have heard the instrument in what we hope is only its temporary location agree that it provides the most perfect reproduction they have ever heard.

With an instrument like this one the need for a music room is even greater than before. The Faculty Lounge, where the old phonograph is now located, while better than the corridor, still leaves much to be desired.

Yet where in Walker can such a room be provided? There is not enough space for all the regular activities now. If ever the need for an addition to Walker were evident it is evident now. All except two of the handball courts have been converted into activity offices, despite the strenuous objections of the handball enthusiasts. Yet the activities are still crowded for space. The Walker Memorial Committee is doing its best to juggle offices and activities but there just isn't enough room. Even now a number of them must share offices, and most of the others are cramped for space, despite the conversion of much of the basement storage space into offices. Some activities have made no attempt to get space in Walker because of these conditions. On a number of occasions the Dining Service has been forced to place special parties behind the curtains of the main hall, because there were not enough dining rooms available. And whenever an event is held requiring something more nearly approaching an auditorium than the Institute lecture halls, the diners are chased into North Hall and the Main Hall is pressed into service. That may be one of the reasons more large meetings are not held.

The phonograph unquestionably should have a room of its own. But the activities are unreasonably crowded, the Dining Service could use more room, there is no real auditorium here, and there is no more space in Walker.

There is the problem. What is its solution?

EQUAL OPPORTUNITY

FREE COLLEGE

TODAY seems to be an age of reforms and new experiments, and perhaps it is time to introduce one reform which has been suggested many times in the past.

An extension of the public school system to include college courses is only a logical extension of high school. Its justification, which Americans have already recognized, is the belief that all children should have an equal chance.

The word "born", used by the framers of the Constitution in stating the doctrine that all men are born free and equal, brings up the same idea—that a child should not have to suffer because of the degree of success or failure of his parents. A child does not come into the world by his own volition; he cannot judge what he wishes to do or must do until he knows something about this world and society.

If, then, a child receives a lop-sided picture of life from his parents and environment, he never has a chance to make a fair decision as to what kind of life he wants to lead, whether it is worth while to work hard or rather to take life easy.

If, on the other hand, every child were to be given the same chance at the start of life, to be given understanding care, and as much education as he was willing to undertake and showed the ability to handle, then it seems it would be fair to say, "We give everyone an equal chance—how well he succeeds depends on himself."

It is unlikely that every child can be given an equal chance under present conditions; it is more unlikely that we can permit the devil to take the hindmost in our present society—in other words, to let those who can't make a living starve to death.

We can, however, continue on the course we have already set, and extend equalization of opportunity to free college courses for those who are capable enough for higher education.

A few government scholarships, similar to those which some other countries already offer, paying tuition and expenses to any school in the country, would be a step in the right direction, until enough free junior and four-year colleges are established.

With The American College Editor

Student Stamina

Last week's edition of *The Campus*—the "Sour Chimes"—was exaggerated, good-natured satire, all in fun.

Yet according to numerous comments from both faculty members and students, the issue struck home at many fundamental gripes, and was probably more representative of general campus opinion than any other public expression during the year.

It is to be regretted that students must wait three years for a farcical edition of their paper in which to express their views. To say that the majority of undergraduates have no definite opinions on University policies is decidedly untrue. What is true is that, for one reason or another, students hesitate to publicly present those opinions.

Is it that they are fearful of administrative disfavor? Intelligent opinion, courteously expressed, brings respect not disfavor. It should be obvious that this year's *Campus* has proved that point beyond dispute.

Do they trust in their duly elected representatives to faithfully uphold student interest? Representatives can do little more than nod their heads on important issues when they have not been decisively instructed by members of the Students' Association.

Do they trust in the student publication? Such trust has not always been reliable in the past, may not be in future years. Changing personnel results in changing editorial policy.

There can be no substitute for courageous student opinion that is crystallized at meetings of the Students' Association. Most of the students were vastly pleased with the "Sour Chimes." They felt that nearly everything that was said needed saying.

But the "Sour Chimes" has no voting power, and *The Campus* is not the official representative of the Students' Association. Whatever truth was hit upon, whatever sore spots were touched, should not have to wait for a "Sour Chimes." They can and should be discussed openly at meetings. We can see to it that our representatives are more than rubber stamps to tradition and authority.

A so-called "militant alumni" is in the process of formation. We do not want a militant student body. We do want a well-informed and well-represented undergraduate body, who will become ardent Rochester supporters only as they become an active element in determining those policies of the administration which directly concern the students.—*The Campus*, U. of Rochester.

ISSUES

The opinions expressed in this column are those of the writer and do not necessarily concur with the editorial policy of *The Tech*.

BY THE FERRET

THE FERRET IS DEAD, LONG live the Ferret are the words with which not a few had hoped to see today's column headed. And so we oblige. The Ferret, however, is very much alive. Mr. Vincens deserves for his choice sentiments during our incapacitation.

OFF TO A GOOD START is this year's edition of what is hopefully expected to be the second All-Technology Peace Conference. With Dr. Compton's nod and the fairly warm reception of *The Tech*, the Tech Union, the T. C. A., and the 5:15 Club, it begins to look as though the A. S. U. has a comfortable lead in erasing the stigma which has dogged it since it sprang, Venus-like, slightly more than a year ago from the unsavory corpses of the N. S. L. and the S. L. I. D.

To deserve and preserve this favorable attitude, the A. S. U. will have to keep faith by really "taking a back seat" after the Conference Steering Committee is elected.

Students expect—and rightfully—that this year's parley, like last's, will be neutrally managed. Only a representative committee can hope to attain a really fence-straddling position.

IN THE SPRING, A YOUNG ENGINEER's fancy lightly turns to window-washing. And so the windows, in Aladdin-lamp fashion, get washed.

Elated with their signal success, leaders of the Campaign have hinted that their next move may be the Walker Dining Service.

AND WITH SPRING, POLITICS are budding. Looming formidably as a hot contest is the Junior Class presidency. Although Mr. Seykota, the present incumbent, is a Phi Kappa Sig, the fraternity block has cast its lot with Mr. Wingard.

This action is not so strange as it might seem on the face of it, considering last year's election. Seykota, of Hudson-Delange fame, claims dormitory support and is going to fight it out. If he is right, we can see the smoke of the battle already.

If, on the other hand, the dormitories decide to put their own candidate in the field, Seykota is likely to find himself stranded between the two camps, with support from neither.

Faculty Club To Hold Annual Spring Party

The M. I. T. Faculty Club will hold its annual spring party at the Hotel Continental on April 8. Daniel C. Sayre, '23, of Pan American Airways, will give an illustrated talk on "Flying the Pacific." Mrs. P. C. Beamer and Miss Elizabeth Beamer of Honolulu will entertain with interpretive Hawaiian dances. After the dinner, there will be dancing to Phil Claff's orchestra, with tables of bridge for those who do not care to dance.

Catholic Club Elects Officers, Directors

A new board of officers and directors was elected at a meeting of the Catholic Club last night in 10-267. Paul B. Black, '38, was elected president; Paul R. Des Jardins, '38, vice-president; John H. Keefe, Jr., '39, corresponding secretary; Malcolm F. McKeab, '38, recording secretary; and Welcome W. Bender, '38, treasurer.

New directors of the club are Bernard W. Mehren, '38; Leo A. Kiley, '39, and Wylie C. Kirkpatrick, '40. President Henry H. Guerke, '37, conducted the elections. The club discussed plans for a dance this month and for a communion breakfast in May.

Reviews and Previews

Rodgers and Hart are at it again. The new musical comedy "Babes in Arms" starring Mitzi Green, Ray Heatherton, Alfred Drake and a host of up and coming vivacious youngsters is giving Boston a real treat in comedy.

Although getting off on the wrong foot, the show quickly gets into the spirit of things. Staging of the various scenes is done very well and even further, the scenes are played well.

Having once heard from our predecessors that a smash song will make a smash hit, this should be a triple smash. All songs are adequate but four in particular have "it." Johnny One Note and Way Out West are the high spots of the first act while *The Lady is a Tramp* and *Imagine* take the spotlight for the second act.

The acting throughout the whole play is rather excellent. Young actors and actresses seem to be the vogue today but, without detracting from the play in any way, they all have a good time. All of the cast are very good dancers, most of them being able to do anything from a waltz to trucking not omitting very much.

For an evening with the best babe in your arms, *Babes in Arms* seems to be the best bet for the next few weeks.

P.S. The Great Waltz comes to the Opera House April 12 for a limited engagement of two weeks. The Shuberts seem to be running the town at present with their smash hits.

H. H. S.

RKO BOSTON—On the stage is Heloise Martin, America's No. 1 shower-bath co-ed (You betcha, I'm going), along with "The Three Sailors," Charmion, nudist queen of the San Diego World's Fair, and "Broadway after Dark" revue. On the screen is "She's Dangerous" with Tara Birell and Cesar Romero.

KEITH MEMORIAL.—Showing "Top of the Town," new musical comedy with Doris Nolan, and "The Man Who Found Himself" with John Beal, Philip Houston, and Joan Fontaine.

FINE ARTS—"The Life of Saint Don Bosco," held over, is the story of a great religious educator. This is an Italian film with English subtitles.

PARAMOUNT and FENWAY—A double feature is offered which includes "Outcast," produced from Frank Adam's best seller, "Happiness Preferred"; and starring Warren William, Karen Morley, and Lewis Stone, and "Her Husband's Secretary," featuring Jean Muir.

SCOLLAY—Two for the price of one and two good ones—"Swing High, Swing Low" with Carole Lombard and Fred MacMurray, and "A Doctor's Diary" with George Bancroft and Helen Burgess.

MODERN—Showing "On the Avenue" and "Swing High, Swing Low." Madeline Carroll, Dick Powell, Alice Faye, and the Ritz Brothers (Nuts, to you) are in the first named show.

WASHINGTON ST. OLYMPIA—Starting Saturday are "Green Light," with Errol Flynn, Anita Louise, and Margaret Lindsey and "Ready, Willing, and Able," with Ruby Keeler.

UPTOWN—The two pictures for the week are "On the Avenue" and "Don't Tell Your Wife," with Guy Kibbee, Una Merkel, and Lynn Overman.

UNIVERSITY—If you didn't see it before, here's your chance—William Powell and Myrna Loy in "After the Thin Man"; also running "Don't Tell Your Wife."

EXETER—This week's program includes "On the Avenue" and "Laughing at Trouble"; with Jane Darwell and Lois Wilson.

Lacrosse Squad Opens Season Here Tomorrow

Strong Beaver Team Will Face
Boston Lacrosse Club
On Coop Field

Game Is a Non-official One

Members of the Beaver Lacrosse team will get their first taste of the coming season's battles tomorrow afternoon when they face the Boston Lacrosse Club in a non-official encounter.

With some four weeks of practice behind them, the Institute squad is in excellent shape, according to Coach Tommy Tucker. He maintained that "this is the best group I have had since I've been coaching lacrosse here and I expect them to win a number of games this season."

The probable line-up for Saturday's game as announced by Tucker will consist of five seniors who have been out for the sport for three years and five sophomores, members of last year's strong yearling squad. Those who are expected to shine for the Engineers are Captain Richard Gidley, '37 at attack, Richard Martin, '39 at center, and the De Raismes twins, Goodwin and Robert, both seniors, at goal and attack, respectively.

The visiting club is composed of former members of college varsity lacrosse teams. It has had experience in working as a unit, having faced the Harvard stick-and-netters last week in a practice encounter in which no score was kept. Since then it has been bolstered up by two former Harvard players and an ex-member of the Dartmouth team.

The Technology squad will play its first regular game of the season in the New England Intercollegiate Lacrosse League on April 7 when the team is to face the Springfield College aggregation, last year's circuit champs.

The lineups for tomorrow's game follow:

Technology	Boston Lacrosse Club
C. De Raismes	goal
Kettendorf	pt.
Fellouris	cpt
Silber	1 def
Paige	2 def
Martin	cen
De Tierre	2 aat
R. De Raismes	1 att

Tech Oarsmen Aided By Automatic Timer; Invention of Student

Norman Wilcox, G, Is Originator
of Device; Crewmen's
Chances Good

With the advent of Norman Wilcox, G, and his accelerometer, a new automatic timing device; it will now be possible for Coach Bill Haines to tell at exactly what rate his crews speed up or slow down during a race. This will materially help Coach Haines and his cox, Roland French, '38, to decide just how to row a race, getting everything out of the men while still leaving them with enough endurance to make a strong finish.

Coach Haines has spoken very optimistically of his crew's chances in their first race on April 24 against Princeton and Harvard; in spite of the windy weather which has been hindering practice during the last few days. With six of last year's varsity heavies back in the boat, the hopes for a successful season are the brightest in several years.

The probable, although unconfirmed lineup of the varsity heavies for the first race reading from bow to stern is: Donald Weir, '38, Wayne Pierce, '37, Dave Hammoll, '39, Jack Chapin, '38, Francis Hagerty, '38, John Glacken, '38, Albert Wilson, '38, Cornelius Coombs, '38, and Roland French, '38, coxswain.

Muther Re-elected To Lead Hockeymen

Richard Muther, '38, was re-elected captain of next year's hockey sextet at a dinner held in Walker Memorial on Wednesday evening. Muther, ace defense man during the past season, and the only man to be captain for two years, expressed his hopes for an exceptionally successful season next winter. With only two regulars graduating, and nine letter men returning, it is very probable that Captain Muther's hopes will be realized.

The award of the faculty prize was presented by Coach George Owen to Clinton Hilliker, '39, as the man who had done most for the team.

Technology Golf Team Practices Next Week

With one letter man back, and with a number of juniors from last year's squad, the golf team starts practice next week for its first match with Tufts on April 16. The loss of three men from last year's team will be a

Tennis Courts to be Opened Free-of-Charge Next Monday

For the first time in the history of the Institute, students will be allowed the use of the tennis courts free-of-charge, commencing next Monday, when Mr. Eddie Pung will open the books for sign-ups.

Two nets have already been erected in the cement courts adjacent to the Coop, and students and faculty members will be allowed to sign for these provided they show their bursar's card or tuition receipt.

Students may play with guests if they choose, but alumni and others may use the courts only when they are not being used by students, and then at a charge of forty cents per hour per court.

A. J. Powers Picked As New Mat Captain

With the election last night of Augustin J. Powers, '39, as captain of next year's team; the wrestling team formally concluded its season at a banquet in the Silver Room of Walker. Two freshmen, John Vanderpool, and William Stone were elected as honorary captains of the freshman team.

Jervis Webb, '37, retiring captain was presented the Varsity Club award. In addition, eight medals were presented to the winners in the All-Tech wrestling tournament held last winter. Plans for next year were discussed at the banquet.

handicap to the golfers, but Manager Ewing expressed confidence in the juniors out for the team. The schedule for the next three weeks is:

April 16	Tufts
April 23	Boston College
April 30	Holy Cross

Wirth Captures Title In P.T. Competition

Winner Scores 465 Point Total
In Annual Frosh Track
Contest

By compiling the highest amount of points in the annual freshman P.T. track competition, H. T. Wirth captured first place and proved himself the best all around trackman of the class of '40. Wirth amassed a score of 465 points out of a possible 700, or an average of 66.3 points per event out of a possible 100.

The nine men who followed him in scoring are: G. E. Coorsen, 458; J. Shill, 416; E. Lemanski, 410; G. W. Clark, 409; H. Lang, 387; F. Loomis, 385; D. Crosby, 372; V. Kyllonen, 359; O. Rushard, 342.

The points are awarded on the basis of the performances in the various events. If the contestant equals or surpasses the record in the event, he is given 100 points in that event. Points are graded downwards from the record marks proportionately.

mass meetings, arrange definite colloquiums, facilitate organized conferences or "bull sessions" with the instructors of the various departments, and otherwise relieve the drab scholastic routine of fact finding and repetition which is now in effect at the Institute. If this new program is adopted, Peters says, the undergraduate body will be able to gather together in its entirety for the first time in many years and act as a unit instead of a large group of independent individuals.

Duties Consist of Conferences

It is the duty of these new pledges to call on the heads of the various departments throughout the Institute and find out what they think about this idea. When the consensus of opinion has been secured in this manner, the active chapter will make its decision about entering upon a definite campaign to secure this change in scheduling.

Phonograph

(Continued from Page 1)

upon. The old machine will probably revert to the English department for use in music appreciation classes.

The phonograph, built by the Federal Telegraph Company, consists of a chair-high record player and remote control cabinet and a separate large speaker console. There are three speakers: a large main speaker for the lower frequencies, and twin high frequency speakers whose maximum frequency can be varied from 4,500 cycles per second to 20,000 per second, and whose power can be reduced by from zero to 9 decibels.

Reproduction of High Fidelity

At a short impromptu concert last night a reporter of The Tech played on the new instrument several well known operatic recordings, including the Tanhauser "Pilgrim's Chorus," the "Quartet" from Rigoletto, and excerpts from Tosca, including the "Te Deum." Fidelity of reproduction was everything that the frequency labels on the tone controls had indicated and very noticeably exceeded that of the old victrola.

Faculty Promotions

(Continued from Page 1)

B. Wilbur, Department of Civil and Sanitary Engineering; Murray F. Gardner, Richard H. Frazier and Parry H. Moon, all of the Department of Electrical Engineering; and Wayne B. Nottingham and Nathaniel H. Frank of the Department of Physics.

New Assistant Professors

Members of the staff promoted to the rank of assistant professor were Herbert C. Moore and Charles W. McGregor of the Department of Mechanical Engineering; Ernest N. Gelotte, Department of Architecture; Robert S. Harris, Department of Biology and Public Health; Ronald E. Robnett, Department of Business and Engineering Administration; George G. Marvin and Edmund L. Gamble, Department of Chemistry; Arthur C. Ruge, Department of Civil and Sanitary Engineering; William M. Hall, Department of Electrical Engineering; Paul C. Eaton, Department of English; Robert H. Cameron, Depart-

ment of Mathematics; and Morris Cohen, Department of Mining and Metallurgy.

Eight Made Instructors

Promotion to the rank of instructor went to Archibald Williams, Business and Engineering Administration; George A. Akin, Chemical Engineering; Edward K. Livernash, Department of Economics and Social Science; Henry E. Kiley, Leopold R. Michel, Blake Mills and Roger L. Putney, all of the Department of Mechanical Engineering; and Reinhardt Schuhmann, Jr., Mining and Metallurgy Department.

New appointments include H. W. Fairburn as assistant professor of geology; Niels H. Larsen, instructor in architecture; Robert V. Lukes, instructor in chemical engineering; Alberto F. Thompson, Jr., instructor in chemistry; and James G. Baker, assistant director of the School of Chemical Engineering Practice.

Coop

(Continued from Page 1)

for two out of three of the designing architects, Perry, Shaw and Hepburn, are Tech men. The general contractor was Leslie Porters Co.

Store is Completely Fireproof

The store is a one-story fire-proof spacious structure. The facade is of rust colored native limestone and is decorated with metal statues of beavers at work. The latest improvements in ventilating and the many windows will keep the store light and airy during the coming summer months.

Money for the project was obtained from the sinking fund of the Co-operative Society, which consists of an accumulation of savings over the twenty year period since the establishment has been in business. Attempts made by The Tech to discover the cost of removing the expression "Tech Is Hell," which was emblazoned across the front of the partially completed building recently, were unsuccessful.

Visit our Ladies gown rental dept.

Clothing Department is Enlarged

All modern lighting fixtures and an enlargement of many of the present departments are to be featured in the new store. The men's furnishing department has been considerably enlarged, and a stock of shoes and hats has been taken in so that Tech men will no longer have to travel to the Harvard store to obtain their clothing. The barber shop will have a room, all by itself, in the new building. All new equipment has been installed down to a new shoe polishing stand.

Bar is Important Innovation

By far the most important innovation is the new luncheonette bar. There have been numerous suggestions made for such a bar, and it is certified that the response from the membership will justify its installation. The bar pledges to use nothing but good, raw materials; skilled personnel; and good equipment and ven-

tilation. However, more interesting than that to Tech men is the fact that the skilled personnel are females.

Society Long Established

The Harvard Co-operative Society was established in 1882 and was incorporated in 1903. The object of the society is to reduce the cost of living at Technology. In the last few years the dividends paid to members on their previous year's purchases has amounted to approximately \$60,000. Oddly enough, between 10 and 15 percent of the dividends is not claimed this year.

The new store will open at 8.30 A.M., as has been the custom in the past. The only change in hours is the fact that the store will close at 3.50 P.M. on Saturdays. The Soda and luncheon bar will open at 7.30 A.M. to serve breakfast.

Margaret Sullivan says Luckies are the answer for her throat

"I am not sure which is more critical—a Broadway audience or the movie microphones. At any rate, whether in Hollywood or New York, an actress has to be certain that her performances are always up to the peak. And that means being careful of the voice and throat. That's why, though I enjoy smoking thoroughly, I try to use judgment in the cigarette I choose. When I first began smoking, Luckies were my choice, because I found this light smoke advisable for my throat. And that's as true today as ever. Luckies are still my standby."

Margaret Sullivan

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Sullivan verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
